

SAMPLE EMAIL TO SEND TO PROSPECTIVE GROUP MEMBERS

(Send this email prior to inviting them on TeamPatient.)

Dear _____,

I have joined TeamPatient to help me, my medical team and important people in my life updated on my condition and progress, to coordinate and manage medical and personal matters. TeamPatient transforms how the stakeholders in a patient's care can team-up and coordinate any aspect of the patient's life under care - medical and non-medical - throughout the care-cycle, on demand.

I am inviting you to my TeamPatient Network as a member of my _____ Group. You will receive a notification from the Team Patient Website Support Team. To accept the invitation, please click on the link provided to get you to the site and complete the account creation.

Please add @solutionizeinc.com to your Safe Senders list on your email system to ensure that your spam filter does not reject TeamPatient notifications.

I look forward to seeing you on my Team!
